Procedure for dividing the students into batches:

This procedure is taken up by the department project coordinator(s) before the college reopens for IV Year I semester, in every academic year. The result analysis for the concerned section is obtained, till III Year I semester, and the students are divided into 4 groups depending on their CGPA.

A Section consists of generally students around 60. The Students are placed into 4 groups, where each group consists of 15 students. The First group consists of the top 15 students in the class and they are placed in descending order from top. They are designated as 'Project Leaders'.

The second group consists of the next 15 students and they are placed in ascending order from bottom. The next fifteen students will be in group-3 where they are placed in descending order from top. The last fifteen students make up group-4 and are placed in ascending order from bottom.
