Improve teaching

No improvements required

Average

Nothing to say

Teachers should know our weakness in the subjects and suggest us in private if possible

They do not support us in anything because we want attendance and also to participate in other activities like clubs and all but if we ask them permission they'll not give attendance they won't encourage us and also I'm not happy with some their teaching process they come connect laptop to projector and read what is there in that atleast they'll not give time to write in our notes but they always want us to maintain the notes. And also coming to labs in this sem for python lab I didn't did anything in lab because in 2 and half hours lab they used teach for 2 hours continuously without any gap and 30 mins for execution that's actually not the process of lab. Electives subjects were our choice what to choose even that also you people decided the subject and grouped 100 people for each class which is actually not that good what if this is a covid moment . Anyways you'll not read anything but this is for my satisfaction that I complained you. Thank you but these are all just complaints because you may try to recover in next semester.

College timings are bit too much.Because of the timings,we can't focus in our studies.so, college management should think about it

The teachers must learn comunication skills and the way to deal with the students

More conceptual information

Can send faculty to teach subject according to their specifications

avoid ppts

Quality of teaching process is very good

moderate

It would be more effective to engage students in real-world projects from 2nd year onwards to get some insights and gain an understanding of the major project. Enhance and plan for industrial visits. Effective Student engagement clubs on core subjects and interaction with present and passed out seniors.

Improve in teaching

Well done

Should take an interest in students' weaknesses

Provide constructive feedback in a timely manner to help students improve.

The kits in the laboratory are not working try to replace it

Teaching is good and gives applications

I request faculty to slow down at complicating topics

Thank you

The overall experience was good but sometimes we used to face some difficulties with the projector.

Nothing

Try to reach every student and ask for their doubts.

No suggestions from me.

Make teaching a two way interaction

The staff and professors are supportive and have excellent experience. Great curriculum, academics and environment..

I wish

All is well.....

Giving seminar

very good teaching with motivation

Every thing fine

Very Good Explanation

Everything was well organized and easy to understand no suggestions for improvement.
