To Whom So Ever It May Concern

Dear Sir/Madam,

This has with reference to the submission of Fondecyt Postdoctorado Project Number N°3190423, entitled "Development of multiferroics nanocomposites for Energy and Smart applications" in which Dr. Rajesh Babu Bitra is the Principal Investigator. As a sponsoring professor of this postdoctoral research Project, I am well satisfied with the research investigation work of Dr. Rajesh Babu during his THREE years term of March 2019-March 2022. He had well planned and executed his three years research work, and successfully synthesized and thoroughly characterized different nano multiferroic systems by wet-chemical processes, Ultrathin 2D Graphene Oxide. In continuation, he had developed and optimized the PVDF, PDMS prototypes suitable for energy and smart applications principally applicable in Chile and around the world.

Dr. Rajesh Babu has done extensive research work on the synthesis and optimization of multiferroic PVDF-GO nanocomposites in visiting the Department of Mechanical Engineering, University of Bath, UK. As part of his three years research work, he has interacted by means of characterizations within UdeC, in visiting various labs in Chile (in USACH, Universidad Andrés Bello, Santiago etc.), invited talks, participation of workshops, etc. (in Wessex School, Concepcion) and International (UK and India).

Dr. Rajesh Babu has presented in International Conference on Advanced Light weight Materials and Structures (ICALMS) held in India during March, 6th-7th,2020 and he received Best Paper presentation award.

Dr. Rajesh Babu has involved and helped in guiding TWO pregrado and One doctorado student in our research group for development of nano multiferroics, and had involved in nanotechnology laboratory classes to our pregrado students during three years (in presential and also in online interaction during Covid time).

Best regards, 1
