This is to inform that the Departments of CSE and IT are planning to conduct a Value-Added Course on "UiPath RPA Design and Development Module-1" for III year students. As our college is an Academic Alliance Partner of UiPath, all the students who successfully undergo the course and complete the given Capstone Projects at the end would be receiving a "Diploma of Completion" Certificate from UiPath. Also, the student will develop skills required to pass "UiPath RPA Associate Exam" successfully.

The course is for a duration of 33 hours which includes both Lectures and Practical sessions. The classes are scheduled starting from 5th September, 2020 and will be conducted on Saturdays.

Interested students, are requested to register for the course before 1st September, 2020 using the below link.

Details of the Course

Course Name :

UiPath RPA Design and Development

Course Duration :

60 hours

Course Overview :

The Robotic Process Automation (RPA) Design & Development v2.0 course offers comprehensive knowledge and professional-level skills focused on developing and deploying software robots. The course assumes no prior knowledge of RPA. This course aims at providing an understanding of basic concepts of Robotic Process Automation. It introduces vital RPA Design and Development strategies and methodologies specified in the context of UiPath products. The student undergoing the course shall develop the competence to design and develop a robot for a defined process.

Course Objectives :

- To prepare students to be Junior RPA Developers
- Learn the basic concepts of Robotic Process Automation
- Develop familiarity and deep understanding of UiPath tools
- Develop ability to independently design and create robots for business processes
- Develop skills required to pass UiPath RPA Associate v1.0 Exam successfully

Course Outline :

The course consists of 8 lessons:

- Lesson 1: Robotic Process Automation Basics
- Lesson 2: Introduction to UiPath
- Lesson 3: Variables and Arguments
- Lesson 4: Selections
- Lesson 5: Control Flow
- Lesson 6: Data Manipulation
- Lesson 7: Automation Concepts and Techniques
- Lesson 8: Orchestration

Subject: Webinar on Analog IC Design Using Mentor EDA Tools--CoreEL Technologies

To: <suneelkumar.s@coreel.com>

Dear Professor,

Greetings from CoreEL Technologies..!

"Hope you and your family well and staying safe"

We want to take this time to thank you for the opportunities we've had to work with you and your institute. We truly appreciate your past business and look forward to a long future together.

As COVID-19 spreads and preventive measures like social-distancing, self-quarantine and constant hand-washing become the new normal for people around the world, schools, businesses and governments are taking steps to slow the spread of new COVID-19 cases.

We recognize that changing work conditions presents an opportunity for our community to increase their skills and abilities with VLSI solutions. To support this we are offering "CoreEL Live Technical " *Analog IC Design Using Mentor EDA Tools 45nm technology*" between 10:30 Am to 12:30pm on 10th April 2020. This will help advance proficiency on Mentor latest technology products you already use or explore and learn latest/new solutions.

Register link will be available in attached document.

INSTITUTION

G.V.P. College of Engineering for Women is established under the aegis of Gayatri Vidya Parishad, an educational society founded by eminent academicians, industrialists, and Philanthropists of Visakhapatnam. To empower women in technological and engineering fields, the society has established this engineering college exclusively for women in the year 2008. It is a self-financed institution offering excellence in engineering education and is affiliated to Jawaharal Nehru Technological University, Kakinada (JNTUK), approved by AICTE, New Delhi.

The College is offering UG courses in ECE, EEE, CSE, IT and a PG Course in ECE. The Institute has very good infrastructural facilities, e-classrooms, and well equipped laboratories. The college has well qualified faculty to train the women engineers who are in pursuit of their professional careers in the courses offered by the institute.

ABOUT DEPARTMENT OF EEE

The department of Electrical and Electronics Engineering was established in 2011 and offers B.Tech Program in EEE. The Department is well established with experienced faculty having multiple years of experience and involved in research activities in the areas of power systems, renewable energy systems, control systems and advanced power electronic drives. The department has state-of-the-art laboratories with advanced software and hardware to facilitate research in major areas of EEE. The department flourishes in its enthusiastic and energetic environment comprising of the major fields of Electrical, Electronics and Elements of Computer Science.

ABOUT THE TOPIC

With the continuous development and progress of science and technology, automation technology has occupied an important position in many fields while its application in Electrical Engineering is increasingly widespread. Therefore, the application of automation technology in electrical engineering is of great significance for stability and work efficiency.

OBJECTIVE OF THE WEBINAR:

The Electrical and Automation Technology prepares students for exciting and well-paying career paths in the field of industrial control and automation. All manufacturing processes rely on electricity, electronics, sensors, communications, hydraulics and pneumatics, and computer control. The webinar provides sound theory reinforced by applications which reflect the expectations and responsibilities of graduates in the workplace.

Dear Sir,

Greetings from CEMS.

First of all thank you so much for your valuable time during my visit to the college dated 07/07/2020. As discussed and planned yesterday about Exclusive Webinar with your esteemed Organisation Kindly find the Details.

Topic for ECE Branch- Industrial Automation

Wednesday 15th July Time 11:00 am to 01:00 pm

Speaker Details:-

Name: Ajit Kumar Patro.

Domain: Electrical & Automation.

Experience: As Executive Engg (E&A) in Jindal Stainless Ltd, Jaipur.

As Senior Engineer in DesignTech Systems Pvt Ltd, Pune.

E-mail: ajitkumar.patro@design4days.com

Contact: +91 9078835642

Topic for EEE Branch- Electrical & Automation Technology

Monday 13th July 2020, Time 11:00 am to 01:00 pm

Speaker Details:-

Name: DEEPAK SUNDARAM

Domain: Electrical.

Experience: Electrical Engineer with 5+ years of Experience in Electrical Domain.

E-mail: deepak.sundaram@gmail.com

Contact: +91.8319348263.

Pls find the enclosed copy of Syllabus for learning Electrical Routing (Prerequisites are:- Students have to learn Essentials for Designers , Drafting essentials & Knowledge in Electrical Domain).

We will be conducting webinar on Microsoft Teams Platform & link would be shared separately.

E-Certificate will be given only to those who attend complete webinar.

Report On Webinar

TOPIC: ELECTRICAL & AUTOMATION TECHNOLOGY

Speaker: Mr. Deepak Sundaram
Electrical Domain
CEMS

Date & Time : 13th July 2020, 11 am to 1 pm

The department of EEE has organized a webinar for II, III & IV year EEE students in the field of Electrical & Automation Technology.

The topics covered in this lecture are as follows:

- Introduction to drives
- AC motors and drives
- DC motors and drives
- Working of AC-DC Drives
- Commissioning of drives

Report on the course:

The students attended the webinar on Electrical & Automation Technology which is lectured by Deepak Sundaram, Centre of Excellence in Maritime and Shipbuilding, Visakhapatnam. The topics covered in this course are introduction to drives, ac drives working, drive system, need of drives, electric drives, advantages and applications of electric drive, components in drive system, dc motor and drive, four quadrant operation, dc drive components, drive connection, drive commissioning through BOP, motor potentiometer, ac motors and drives, advantages and applications, control of motors from system, selection of ac drives, components of ac drives, commissioning, ramp function generator, shut down functions.

FEED BACK FROM RESOURCE PERSON:

A technical workshop was conducted on 25th Jul 19 from 1400 to 1600 hrs at GVP College of Engg for Women. Students from 3rd year EEE and ECE participated in the workshop.

The session was highly interactive and the students have asked interesting questions about the latest technologies that are adopted in industry today.

Students have asked information about the courses and have expressed desire to undergo the courses.

CPDS has an MOU with GVPCEW and the later the course will be propagated mutually.

Topic: Workshop on Advanced manufacturing technology

JULY 25th 2019:

A workshop on Advanced manufacturing technology conducted by commander Gopi Krishna, Chief operating officer in centre of Excellence in Maritime & ship building (CEMS), Visakhapatnam.

Our respected principal sir & HOD sir invited him. He told us about the advancing technologies in the field of manufacturing.

He motivated the students to participate in various events irrespective of the branch as it develops interest towards development and innovation.

It was an interactive session as the students were enthusiastically answered all the questions posed by him.

He invited the students to do internship in cems, visakhapatnam.

Finally, the session ended by queries session and he was very happy as students were interested and listened throughout the session.

THREE DAY WORKSHOP (27th -29th September, 2018)

ON

Custom Analog & Digital IC Design Using Mentor EDA Tools
(ADICD-18)

Date: 06.09.2018

To
The Principal,

Sir / Madam,

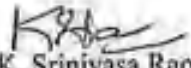

We are glad to inform you that the Department of ECE, GVP College of Engineering for Women, Visakhapatnam is organizing a Three-Day Workshop on Custom Analog & Digital IC Design Using Mentor EDA Tools (ADICD-2018) during 27th-29th September, 2018 in technical association with CoreEL Technologies (I) Pvt. Ltd., Bangalore.

The aim of this workshop is to provide hands-on experience on Mentor EDA tools for VLSI Design covering full custom, semi-custom and cell based design flow.

In this connection, we have great pleasure in inviting faculty members from the departments of ECE & EEE to participate in this programme. Kindly depute interested faculty members from your esteemed institution to take part in the event to enrich their knowledge.

The Workshop Brochure is enclosed herewith for your reference. The same may be circulated among the concerned faculty for wide publicity.

Yours faithfully,

Dr. K. Srinivasa Rao,
Convener & HOD, Dept. of ECE

ABOUT INSTITUTION

G.V.P. College of Engineering for Women is established under the aegis of Gayatri Vidya Parishad, an educational society founded by eminent academicians, industrialists, and Philanthropists of Visakhapatnam. To empower women in technological and engineering fields, the society has established this engineering college exclusively for women in the year 2008. It is a self-financed institution offering excellence in engineering education and is affiliated to Jawaharlal Nehru Technological University, Kakinada (JNTUK), approved by AICTE, New Delhi. The College is offering UG courses in ECE, EEE, CSE, IT and a PG Course in ECE. The institute has very good infrastructural facilities, c-classrooms, and well equipped laboratories. The college has well qualified faculty to train the women engineers who are in pursuit of their professional careers in the courses offered by the Institute.

ABOUT DEPARTMENT OF ECE

The department of Electronics and Communication Engineering offers B.Tech Program in E.C.E and M.Tech program in VLSI Design and Embedded Systems. The department has a team of 23 dedicated and experienced faculty members out of which 4 faculty hold Ph.D degree. The department has state-of-the-art laboratories with advanced software and hardware to facilitate research in major areas of ECE. The ECE department started in 2008 with an initial intake of 120 students in UG Program. In 2011, the department started a PG Program in VLSI Design & Embedded Systems with an intake of 18 students.

ABOUT CoreEL TECHNOLOGIES

CoreEL Technologies is a Customer Application Specific Product & Solutions (CASPS) company offering innovative solutions, ranging across Intellectual Property (IP) cores, Design & Development, -System Design & Prototype Development, Next-Gen Digital products, Integrated solutions, Low Volume Manufacturing, System Upgrades and Obsolescence management. EDA tools, COTS products, Semiconductor solutions and Technology Training. They are a leading developer of advanced electronic system level products and solutions.

Report On A Three-Day Workshop
ON
"CUSTOM ANALOG & DIGITAL IC DESIGN USING MENTOR EDA TOOLS (ADICD-18)"
(27th- 29th SEPTEMBER 2018)

WORKSHOP REPORT

This workshop is initiated and designed by department of E.C.E, G.V.P.W to generate ideas to do research in field of VLSI for the faculty members, Ph.D research scholars and PG Students. This workshop is intended to give experience on Mentor EDA tools for VLSI Analog and Digital Design which enables research scholars to publish their work and the faculty to guide the UG & PG students in right direction in the field of VLSI.

The key objective of this workshop is to provide hands-on experience on the state-of-the-art Mentor EDA tools for VLSI Design. The participants will have an exposure to the Circuit Design & Simulation, Layout, Physical Verification (DRC, LVS), and Extraction, analog design flow, semi-custom design flow and cell based design flow.

Workshop Proceedings:

Day 1: 27.09.2018 (Thursday)

I. Inaugural session (09.30-10.15AM):

Inaugural session was started at 09.30 AM, 32 people were registered, and the chief guest was Dr. N Balaji garu, Professor of E.C.E and Rector, J.N.T. University Kakinada. Dr. E V Prasad, Principal of G.V.P.W, Dr K Srinivasa Rao Convener of ADICD-18, have occupied the seat on the dias as representative from the college, and Sri A.S.N Prasad, president of G.V.P has proceeded over the function. All the H.O.D's, Faculty members of G.V.P.W, Principal of G.V.P.C.E(A), and other senior faculty were attended to inaugural session. The vote of thanks was given by Dr. P M K Prasad , Dept. of ECE, GVPCEW.

After the inaugural session, the lab sessions were started on full custom design flow. Mr. Nagendra Bandi, Senior Application Engineer, CoreEL Technologies (I) Pvt Ltd, Bangalore explained in detail with practical sessions on Mentor Tool for Schematic and layout generation, DRC (Design rule check) and LVS checking, Parasitic Extraction.

Day 2: 28.09.2018 (Friday)

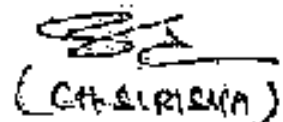

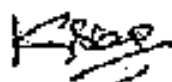

The day two started with analog design flow where he covered AC, DC and transient Analysis, Layout Entry for CS/ Differential Amplifier

Day 3: 29.09.2018 (Saturday)

The day three started with Semi Custom Design Flow, Verilog Entry, Layout design from Verilog netlist, Physical Design and Verification and Cell based design flow in which he has trained the participants with Designing XOR gates with NAND Symbols and Layout of XOR cell by preplaced cells (DRC, LVS, PEX). Later on he has given a demo on working of Zygo board.

II. Valledictory session (3.00-4.00AM):

Dr. K C B Rao, Professor in ECE, JNTU-UCEV acted as chief guest of the session, Dr. K Srinivasa Rao convener of the workshop and Coordinator Mrs M Manikumari were occupied chairs on dais and Dr. K Srinivasa Rao has presided over the session, Mrs M Mani Kumari has given the work shop report and participants were asked for their feedback and they gave positive response. Finally participant certificates are distributed to participant by chief guest and ended with vote of thanks by Dr. L Ganesh, Dept. of ECE, GVPCEW.

A Two-day Hands-On Workshop On

VLSI Design using EDA Tools
(24th&25th January 2017)

Organized by

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING
GAYATHI VIDYA PARISHAD COLLEGE OF ENGINEERING FOR WOMEN

Approved by AICTE, New Delhi, Affiliated to JNT University, Kakinada

About the Workshop

The workshop intends to provide an opportunity for engineering faculty from Academic Institutions, engineers from Industries, Post Graduate and Under Graduate Students to get the exposure with the recent development in VLSI technologies for design and implementation aspects. It will provide opportunities to enhance practical skills and knowledge to those who are specialized in VLSI Systems design and to those who are intending to pursue research in VLSI design areas. It is mainly intended to focus on FPGA based design and designing VLSI circuits, Layout diagrams and RC calculations using EDA tool like Mentor Graphics. Therefore solutions for the many real world problems will be attempted in an efficient way using the EDA tools.

Programme Content

- FPGA based Design flow using Xilinx ISE tools
- Configuration of the design using SPARTAN 3E, SPARTAN 6 and ANVYL Board
- Mentor Tool for Schematic and layout generation
- DRC (Design rule check) and LVS (Layout vs Schematic) checking
- Parasitic Extraction

Resource Persons

The resource persons for this seminar will be drawn from leading academic and research

institutions involved in active research in the areas of VLSI Design.

Target Audience

Faculty, Research Scholars and PG & UG Students from AICTE approved Engineering Colleges/University can apply. Maximum number of participants is restricted to 30.

How to apply:

The Participants can submit the duly filled in registration form Original/Duplicate in the prescribed format at GVPCEW. No Registration fee. The participants have to take care of their own accommodation and travel arrangements. It is also mandatory to send scanned application form through E-mail to chsirisha216@gvpcew.ac.in or before 21.01.2017.

Selection Criteria:

Selection will be done based on *first-come-first-serve basis* to a maximum number of 30 (Thirty). The list of selected participants will be intimated through E-mail. Candidates will be issued certificates on successful completion of the course.

Important Dates:

Last date for registration: 21.01.2017

Intimation of Selected members: 23.01.2017

Duration: 24th Jan & 25th Jan, 2017

About the Institute and Department

GVP College of Engineering for Women is established under aegis of Gayatri Vidya Parishad, an educational society founded by eminent academicians, industrialists, and Philanthropists of Visakhapatnam. The society has an autonomous Engineering College accredited by NAAC and NBA of AICTE, affiliated to JNT University, Kakinada. Gayatri Vidya Parishad is a partner in an Indo-German collaborative Institute viz., Indo-German Institute of advanced Technology jointly organized by Govt. of India, Govt. of A.P and German Government.

The GVP College of Engineering for Women is a self-financed Institution with well qualified faculty, well furnished laboratories, and infrastructure.

The College is offering the following courses

- Computer Science & Engineering
- Electronics & Communication Engineering
- Information Technology
- Electrical and Electronics Engineering

About ECE Department

The department of Electronics and Communication Engineering offers B.Tech degree in E.C.E and M.Tech degree program in VLSI Design and Embedded Systems. The department has well trained faculty members who are highly productive educators and researchers and they provide leadership abilities and expertise to the undergraduate students.

Report on the Two-day Hands-On Workshop On VLSI Design using EDA Tools

The two day hands on Workshop on "VLSI Design using EDA Tools" was initiated and designed by the Department of Electronics and Communication Engineering, Gayatri Vidya Parishad College of Engineering for Women, Madhurawada, Visakhapatnam in association with CoreEL Technologies Pvt. Ltd for the Faculty and Students on 24-01-2017 & 25-01-2017.

This workshop exposes and acquaints the participants to enhance the practical skills in VLSI Technology. The workshop also intended to give hands on experience on Mentor Graphics and Xilinx EDA Tools to design and verify the VLSI circuits which enables participants to publish the work with experimental results.

Day – 1

Session -1: Digital circuit design by Sharath Kanth , sr.Application Engineer at CoreEL Technologies Pvt. Ltd.

- Introduction to Mentor Tools
- CMOS inverter Design and Analysis
- Schematic and Symbol generation
- Pre Layout Simulation
- DC, AC and Transient Analysis
- Wave form generation

Session -2: Digital circuit design by Sharath Kanth ,sr.Application Engineer at CoreEL Technologies Pvt. Ltd.

- Layout Generation of CMOS inverter
- Placement
- Routing
- Physical Verification (DRC,LVS, PEX)
- Post Layout Verification

Day – 2

Session -1: Synchronous and Asynchronous counter design by Sharath Kanth ,sr. Application Engineer at CoreEL Technologies Pvt. Ltd.

- CMOS Synchronous and Asynchronous counter and Analysis
- Schematic and Symbol generation
- Pre Layout Simulation
- Wave form generation

Gayatri Vidya Parishad College of Engineering for Women

Madhurawada, Visakhapatnam, 530048 (Affiliated to

JNTUK, Approved by AICTE, New Delhi)

Department of Electronics and Communication Engineering

Session -2: Configuration of FPGA boards by Sharath Kanth ,sr.Application Engineer at CoreEL Technologies Pvt. Ltd.

- **FPGA based Design flow using Xilinx ISE tools**
- **Configuration of the design using SPARTAN 3E, SPARTAN 6 and ANVYL Board**
