ECO-FRIENDLY DIWALI

(27/10/19)

“Celebrate eco-friendly Diwali, not pollution-friendly”

As we celebrate **Diwali** with loud and noisy firecrackers, thousands of animals and birds are left petrified and terrified with the sound and sudden change in atmosphere.

NSS volunteers have decided to be the change and celebrated this **Diwali** with light and lanterns in an **Eco-Friendly** manner. They even spread this awareness among other people.
